

RAC X™ Low Pressure SwitchTips™

EXPANDED FAMILY OF LOW PRESSURE TIPS

Building on the overwhelming success of the 2017 Fine Finish Low Pressure Tip, and its significant low pressure benefits for contractors worldwide, Graco introduces **NEW LP TIPS FOR LARGE SURFACE AND HIGH PRODUCTION APPLICATIONS** leading the industry with the world's largest offering of low pressure tips.

NOW AVAILABLE IN 46 LOW PRESSURE TIP SIZES TO HANDLE ANY JOB

Graco's extended range of RAC X Low Pressure SwitchTips feature the patented **SmartTip™ Technology** with exclusive internal tip geometry to deliver the industry's best finish at the lowest airless spray pressure.

SMART COMBINATION!

- ▶ **SPRAYS AT UP TO 50% LOWER PRESSURE**
- ▶ **LESS OVERSPRAY**
- ▶ **EASIEST PATTERN OVERLAP**
- ▶ **REDUCES PREP & CLEANUP**
- ▶ **UP TO 2X LIFE**

With the addition of the RAC X LP SwitchTip, we've taken our exclusive **SmartControl™ Pressure Management** technology and applied it to the widest range of tips, allowing contractors to spray at a low pressure for any type of application.

SMARTCONTROL™

**THE BIGGEST ADVANCEMENT
IN AIRLESS TIPS JUST GOT BIGGER**

Fine Finish Applications

Everyday Applications

High Production Applications

Low Pressure Solutions for Every Job.

LATEX WALL PAINT @ 1200 PSI (83 bar)

LP DELIVERS EVEN PATTERN AT LOW PRESSURE

OTHER TIPS PRODUCE TAILS AT SAME PRESSURE

The right tip makes all the difference.

- Sprays at up to 50% lower pressure for a consistent blended finish and complete atomization
- Works with any airless sprayer
- Less overspray reduces prep and clean up
- Soft spray fan pattern makes it easy to apply any material to any surface
- Doubles tip life by spraying at half the pressure
