ABS BLAST HELMET C/W BLOUSE

Description

The ABS blast helmet is an economical blasting respirator, designed to be lightweight, easy to remove and provides users with a high level of protection. Protective mirror slice design with double layer, the inner layer is PVC lens and the outer layer is a steel glass. The design can improve the helmet lens wear resistance effectively and provide wider field of vision. Breathing air flow evenly spread throughout the helmet to reduce the temperature of the head and face and to prevent the lens from fogging. This helmet is also compliant with national safety technical standards, is durable and the protective effect is good.

Part Number	0112-008
Color	Bright blue color
Material	ABS (Helmet material)
Security	With national safety standards (cannot be broke)
Environmental protection	ABS material (non-toxic, harmless)
Sealing	The bell mouth designed, completely sealed
Usage cost	A molding, no wearing parts
Origin	China
Item weight / Net weight	1.6 kg
Packaging Size	One box : 37.0 x 25.0 x 23.0 cm = 2.0 kg
