

UNICORN ZINC PHOSPHATE
GREY GREEN PRIMER

Unicorn Zinc Phosphate Grey Green Primer is an alkyd-based fast drying rust inhibitive primer and designed for application on steel surfaces under non-immersion condition to prevent rust formation.

Zinc Phosphate UC137
Grey Green

UNICORN
ANTIFOULING

Unicorn Antifouling is used as finish coat in immersed environment only and self polishing fouling protection for ship hull.

Dark Red UC 113

UNICORN
EPOXY QD PRIMER

Unicorn Epoxy QD Primer is a two-pack primer with excellent high build and good adhesion for steel and concrete surfaces. It has good chemical resistance against chemicals, oils and petroleum products.

Grey UC 149

UC-GLO HIGH GLOSS FINISH

UC-Glo High Gloss Finish is a superior grade alkyd enamel paint that offer quick drying, excellent glossiness and durability. It is designed for decoration and protection of metal and wood surfaces for both interior and exterior environment.

- Quick Dry
- Excellent Glossiness
- Good Durability
- Fungus Resistance

UNICORN
HIGH TEMPERATURE FINISH

Unicorn High Temperature Finish is a superior quality silicone based aluminium paint suitable for use on interior and exterior ferrous surfaces subject to high heat up to 200°C and 600°C. It gives excellent anti-corrosive protection and ideal for use on machinery, furnaces, in engine room and chimneys.

Aluminium 200°C UC 200

Aluminium 600°C UC 600

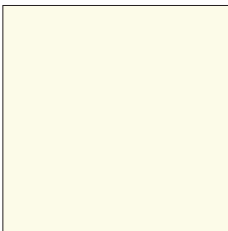

UNICORN EPOXY QD FINISH

Unicorn Epoxy QD Finish is a two-pack amine-adduct cured epoxy finish. It is a hard-wearing, chemical resistance finish for industrial floors and steel structures and provides excellent resistance to abrasion. This product is ideal for interior concrete or water proof rendered floors which are intended for heavy industrial and domestic use. It is also designed for application on masonry, ferrous, non-ferrous metal and wood surfaces.

UNICORN ROADLINE PAINT

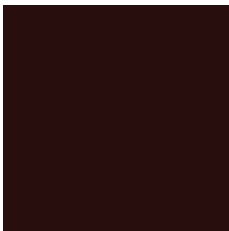

Unicorn Roadline Paint is a chlorinated rubber based paint for road markings like centerlines, edge lines, crosswalks etc. It is very fast drying and has excellent resistance to bleed through of bitumen, excellent abrasion resistance and durability. It is available in Reflective and Non-Reflective types.
